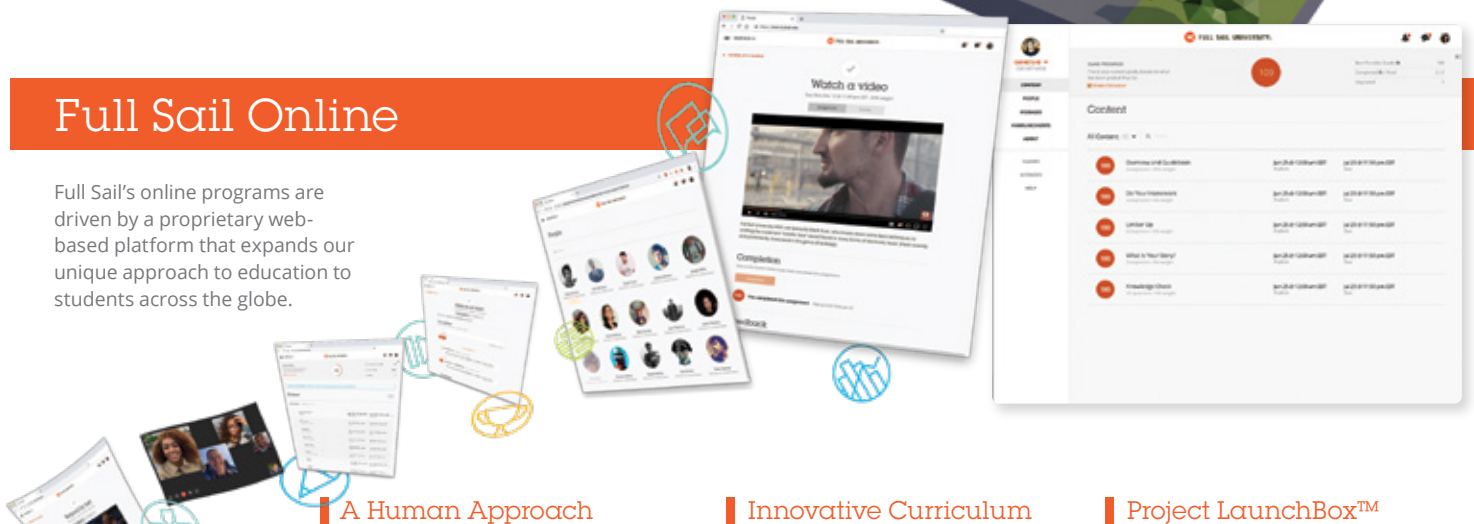
880,000+ SQUARE FEET OF REAL-WORLD MEDIA PRODUCTION FACILITIES

Full Sail Online

Full Sail's online programs are driven by a proprietary web-based platform that expands our unique approach to education to students across the globe.



A Human Approach

One of the foundations of the Full Sail approach is to keep students connected to people, so they may experience one-click access to instructors, exclusive guest lectures, and intuitive, collaborative tools that enable all to meet, share, and receive feedback from their fellow students.

Innovative Curriculum

From video, animation, and podcasts, to more traditional lectures and essay assignments, Full Sail has developed extensive original and engaging content that allows us to challenge and inspire the students we serve.

Project LaunchBox™

All Full Sail students receive a laptop computer loaded with powerful software, as well as other hardware components, all customized to their degree program and included in their tuition. Project LaunchBox is integrated into Full Sail's curriculum, allowing students to utilize the power of technology to create music, film, games, animation, design, and more.

2025 Grammy Awards
